K. C. DAS COMMERCE COLLEGE ■ GUWAHATI ■ ASSAM

From the Principal's Desk...

In today's changing environment new dimensions are continuously being added to the whole education domain. New technologies have a tremendous thrust to create new products, services and entrepreneurs. To accelerate and sustain the spirit of entrepreneurship the school and college curricula has also been imbued with this spirit.

However, these changes can only be possible if the academia instills in young minds, through a conscious process, a sense of self discovery, an experimental learning and above all self-determination to develop innovativeness for becoming an entrepreneur.

At the same time, the students' community must also develop 'can do' attitude. Hence, the youths of today can only create a technology friendly environment and will thus, become the agents of today's change.

**SOMEONE OUGHT TO DO IT, BUT WHY SHOULD I ?
SOMEONE OUGHT TO DO IT, SO WHY NOT I ?
BETWEEN THESE TWO SENTENCES LIE WHOLE
CENTURIES OF MORAL EVOLUTION".**

- ANNIE BESANT
