K. C. DAS COMMERCE COLLEGE ■ GUWAHATI ■ ASSAM

## From the Principal's desk.....

Knowledge is power that acts like an enlightened torch which lights the way to success. The purpose of knowledge is to know all what is knowable and eliminate differences.

Knowledge gives confidence of knowing and 'To know is to win' as Mahabharata says, "The way of knowledge is superior to the way of action." As man settled down to more civilized life, the knowledge gained by him in past worked as channels of water, nourishing his very soul, and thus propelling him to success.

New inventions and discoveries changed lifestyles and also the form and mode of communication. With computerization and new changes in the field of Information and Technology, where skills are changing at the split of a second, it is necessary to be aware of new improvements in the world forum.

*"It is knowledge that ultimately gives salvation"- Gandhiji.*
